## ABOUT ME

Passionate Full Stack Web Developer with expertise in React.js, Next.js, and Node.js. Experienced in building scalable applications like e-commerce platforms and job portals. I bring upheld knowledge gained from Social Media Marketing to enhance digital presence and user engagement.

## WORK EXPERIENCE

**Web Developer** 2025  
[CapregSoft, Wah Cantt](#)

Developed responsive web apps using modern frameworks. Collaborated on full-stack projects, implemented RESTful APIs, and integrated databases effectively.

**Telecommunications Engineer** 2025  
[Turnotech, Islamabad](#)

Managed telecom infrastructure, provided technical support, and optimized network systems for high-performance service delivery.

**WordPress Developer** 2024  
[ITExtreme, Wah](#)

Customized WordPress/WooCommerce sites for international clients. Optimized performance for speed and delivered high-quality web solutions.

## PROJECTS

### • Job Portal Application

NEXT.JS, REACT.JS, TAILWIND CSS, RESTFUL APIS

Modern recruitment portal featuring Server-Side Rendering (SSR). Includes dynamic job listings, user authentication, and application tracking systems.

### • Full-Stack E-Commerce Platform

NODE.JS, REACT.JS, MONGODB, MYSQL, STRIPE

Comprehensive platform with automated notifications and dual database support. Integrated secure payment gateways and a complete order tracking system.

### • Salon Management System (Glamour)

PHP, MYSQL, HTML, CSS, JAVASCRIPT

Full-stack application designed to streamline salon operations. Includes a client portal for booking and a secure Admin Dashboard to manage services and staff.

Check out my GitHub for more projects and source code

## KEY STRENGTHS

I have received several awards for my outstanding communication skills, including recognition for providing exceptional education and counseling. My ability to articulate complex technical concepts enables effective collaboration.
